

Hospice is a concept of high quality medical care that allows patients to live their final weeks to the fullest by providing comfort care when they can no longer be cured. VNA Hospice House is a part of the continuum of end-of-life care offered by the VNA Hospice team of nurses, home health aides, counselors, therapists, clergy, bereavement specialists and trained volunteers. VNA Hospice is the only licensed and Medicare-certified hospice in Indian River County.

A unique blend of beauty and function, VNA Hospice House was built to serve as a home-like haven for patients and their families.

The 11,000-square-foot building has 12 private bedrooms, each with its own bath, screened patio and sleeping accommodations for overnight visitors. Each room overlooks the 4.2-acre secluded garden surrounding the house.

The landscape features lush foliage, a pond and waterfall, a gazebo and numerous meditation areas.

Throughout the house, a peaceful ambiance is reflected through the use of cathedral ceilings, large windows and elegant yet comfortable furniture.

Other features include a therapeutic spa, children's play room, sky-lit reflection room, fully-equipped kitchen, dining room, library, aquarium and several sitting rooms.

A communication system enables residents to receive immediate attention anywhere on the property.

VNA Hospice House incorporates a multidisciplinary approach to caring for patients and is equipped with the staff and state-of-the-art technology to provide for individual mental, emotional, social, spiritual, physical and medical needs.
